

# Fellowship Program

## FELLOWSHIP COMPLETION LETTER

Dear Dhruv Jonathan Athaide,

Dhruv Jonathan Athaide has made notable and technically strong contributions across Red Team Operations, SaaS Automation, and Advanced Mobile Security Development at DeepCytes Cyber Labs in the period of July 2024 to June 2025. He has effectively led and collaborated with a cross-functional team of over 60 Red Team specialists, driving the execution of key security initiatives through structured threat intelligence and red team engagements across critical sectors.

In SaaS Automation, Dhruv played a key role in developing and optimising a scalable platform supporting full kill chain execution for Red Team operations. In Advanced Mobile Security R&D, he demonstrated strong technical capability by developing Android applications with advanced evasion features and contributing to AOSP kernel research for a custom Mobile Security OS.

Dhruv's work reflects solid technical proficiency, collaborative leadership, and a consistent focus on advancing impactful cybersecurity initiatives.

Best regards,

**Shubham Pareek**

GLOBAL ALLIANCE OFFICER  
DEEPCYTES CYBER LABS UK
